

# WORSHIP REVOLUTION

DARLENE ZSCHECH

MAY 11–13, 2010

Prior to your arrival for the worship seminar, please review the information below to determine the two-part workshop you wish to attend. Attendees from the same church might consider the benefits of attending separate workshops (as appropriate to individual interests and needs) to gain additional insight for your team.

## THE BAND IN WORSHIP

This practical session with the Hillsong Team will focus on the role of the band and musical dynamics in setting the stage for a meaningful expression of worship. We will identify and evaluate arrangements that serve the congregation well, and will discuss the art of listening and its importance in crafting a worship experience of excellence and meaning. This workshop will offer helpful insight for all musicians.

## THE VERSATILE VOCALIST

Serving as a worship leader...ministering as a soloist...or harmonizing as a worship team member...in this workshop we will examine the many roles played by the versatile vocalist, and will look at how to smoothly accomplish the transition between roles. We will explore melody and harmony, and will learn ways to more powerfully and effectively exercise our gift of song.

## SONGWRITING...THE CRAFTING OF A SONG

This workshop is designed for those who desire to write songs of worship that will glorify God and give voice to our deepest expressions of praise. In this practical session we will write together and will explore the element of strength in melody that serves a congregation and sets the stage for a meaningful worship experience.
